Healthy Relationships • Healthy Communities

Giving kids a chance

Children in abusive families have been witness to traumatic situations and are at risk for long-term emotional and physical trauma. At Halton Women's Place, our Child & Youth Counsellors work with these children. Through one-on-one counselling, group counselling and activities, children are encouraged to communicate their feelings and make a safety plan for themselves. Referrals are made to other community agencies for children who require more intensive support.

Tomorrow's healthy families start with today's children

In addition to the work carried out in the shelter, the Child & Youth Counsellors work with many schools and other child focused groups throughout the year. A "Developing Healthy Relationships" program is offered to many senior public and secondary schools in the region. Awareness and understanding are key components to prevention.

Kids need to be kids!

Our Mission

Halton Women's Place is an organization providing shelter and crisis services for physically, emotionally, financially and sexually abused women and their dependent children and is dedicated to ending violence against women and their children.
